

IT/HEALTH RECORDS DEPARTMENT

LEAVE HANDOVER REPORT

I am commencing my annual leave on 1st Dec 2025 and will be back on 16th Dec 2025. Mary Mwikali will be in charge of the IT office for that period.

Mary, assisted by Duncan Maingi, will carry out all the activities in the office. These duties include but not limited to the following:

- Offering user support in all departments.
- Ensuring that all servers (HMIS and KenyaEMR) are running well every morning and throughout the day.
- Working closely with the Limsoft developers for any updates.
- Checking on the Internet to ensure that it is running well and monitoring it to ensure no misuses and/or denial of service to other users. Ensure that all the routers are running. Ensure that CCTV cameras are running well and are clearly visible.
- Updating and repairing both software and hardware for all computers within the hospital ensure that they are running well.
- Preparing of staff and students name badges when required. All current employees and students have been issued with name badges.
- Ensuring that the server room is always secured and maintained at the right temperatures. Server room key is left in the IT office and IT office key is left at the Cash office.
- Preparing projection and PAS when needed.
- Taking photos as may be necessary. The camera is at the IT office.
- Ensuring security for all IT assets, tools and equipment as well as the hospital systems.
- Duncan will ensure that all the IT and Library operations at the college are running well.

All the necessary details and documents have been shared.

Kindly ensure confidentiality, data security and privacy.

As we have been doing, ensure that the server AC is switched off every evening and on in the morning. Keep the server room locked and out of bounds for any unauthorized person.

For any assistance always reach out to me, or Muli and his team if concerns the HMIS system.
